

IMPORTANT!

COVIDSafe Guidelines at McCrae Yacht Club

You **must** follow during **Step Three** (from 08/11/20) if you visit the club and sail.

1. **Stay away** if you have any COVID19 symptoms. Get tested instead.
2. **Sign in** to the club using the club's the **QR code** (right). Point your phone camera at the code, then fill in your details. Stuck? Manually connect with this link: <https://covidcomply.org/g5u4z>. A manual sign-in sheet is available next to the canteen.
3. **Sign on** for sailing using the **sailor app**.
4. **Head out**. Australian Sailing discourage congregating. Parents can help their kids.
5. **Sail** – on your own or with a household member. Only kids under 18 from different households can sail together. There are no limits to the number of boats on the water.
6. The **sailing committee** have additional procedures for race management, rescue boats and the tractor.
7. Stay **1.5 m** apart. No more than 10 in a group. Don't kiss, hug or shake hands. But do say hello!
8. You can use the toilets and change room, but we **encourage you to arrive ready for sailing**. Please minimise use of showers and observe density limits.
9. Always **wear a mask** on site (unless you have a legal exemption). Australian Sailing have advised you don't need to wear a mask on the water if sailing solo or with household members. But you must have one on you for when you return to shore. Keep it safe and dry in a sealed pouch while sailing.
10. Limit time indoors and stay under density limits. The **clubroom will not be open** for hanging around. The upstairs kitchen is closed. The tower is also closed except for individual access by the sailing committee and shore officer.
11. The **canteen will be open**. The **bar will be open briefly** after sailing. All alcoholic beverages to be consumed on the front lawn only. You are strongly encouraged to use cards rather than cash.
12. Please **bring a drink bottle** and minimise use of the drinking fountains.
13. Australian Sailing encourage you to clean your equipment before and after sailing
14. Australian Sailing also encourage you to get a flu shot and download the COVID safe app.
15. **Check these rules every time** you go sailing. Our COVID safe plan is a living document so expect tweaks.

These requirements align with our COVIDSafe Plan that conforms with government directions and Australian Sailing guidelines. Any questions contact Jon Knorr, Alistair Watson, Scott Watson or the Shore Officer of the day (see the lower deck). Contact details can be found in the Sailor App.

Don't forget to check the revised Sailing Instructions available online – now incorporating the old-school Charlie Course.

For everyone's health and the reputation of the club, please **do the right thing at all times**. Heavy penalties apply for breaches of government directions and you don't want to receive a 'please explain' from the Commodore!

Thanks and safely enjoy the fruits of a tough lockdown!
